My Carry-Along Noah Activity Book – Jocelyn Miller

Publisher: Lion Hudson, distributed by New Holland Publishers

RRP \$14.99

The story of Noah's Ark filled with animals and sailing to a new land is a children's favourite. This activity book develops the well-known tale with creative projects about Noah, his family and the animals they saved from the great flood.

There are a variety of easy-to-make projects. Children learn about the weather by keeping a weather chart for 40 days - the length of time the ark sailed over the water. They can choose the right tools to build an ark and the materials needed. Simple finger puppets bring the animals to life.

Most of the projects use paper, cardboard, marker pens, scissors and glue. The paper craft and origami-style activities are achievable by young children. There are also familiar puzzles like spot the difference and match the pairs. Plus, a double-page of stickers to brighten the creations.

This colourful, hands-on book will provide hours of fun activities.
