Back to Front Bob – Belinda Ellis

Publisher: Scholastic NZ

RRP \$19.50

This is a fun book to read with children who enjoy words. They can then be challenged to come up with further examples of palindromes. Fun for parents with their child, and for a teacher with a reading group. What a great way to interest children in words for the sake of words!

The title itself can be the initial challenge: what do you think this book will be about?

The idea that words can be loved is interesting to. What words do you love?

The illustrations add to the fun of the book, with Bob the centre of cartwheeling fun. Enjoy!
