Fans of Harry Potter will enjoy the madness and mayhem of Tilly and her extended family, most of whom have special powers or abilities. As Tilly moves closer to her thirteenth birthday and the moment when any special power will reveal itself for her, she becomes more and more sure that she would rather be 'normal' like her father's side of the family.

Instead the various branches of the Angelica family descend for Tilly's changeover party and she finds herself drawn into an attempt by the children to outwit a nasty relative. Readers from 10 years upwards will enjoy the fast-packed action that follows.

Juliet Jacka is the worthy 2013 Winner of the Storylines Tom Fitzgibbon Award for a previously unpublished writer – her use of teenage and pre-teen dialogue is contemporary as is her understanding of the emotions and moods of young people.
