Wheelnuts! Craziest Race On Earth! – Knife & Packer

Publisher: Scholastic Australia

RRP \$19.99

The first of a series, this quote just about sums it all up:

These hilarious, fast-paced stories feature crazy characters, outrageous racetracks and full-colour illustrations, perfect for reluctant readers.

(For ages 7+ years)

In “The Desert Dust Up”, the dialogue, the challenges, the developing characters with their great variety of race vehicles all add up to a fun book.

The full colour comic-type illustrations will surely appeal.

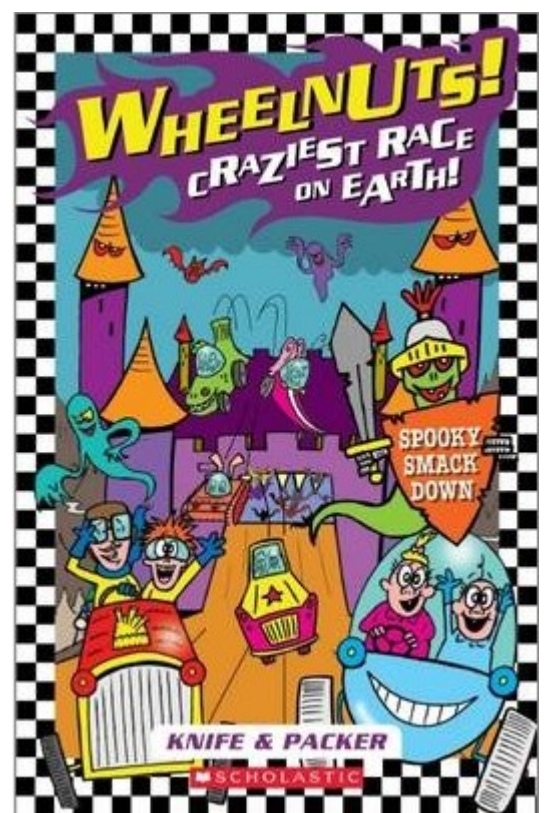

It could be great for those younger than 7 who might enjoy having it read aloud – the illustrations could then keep them happily imagining the excitement and the dangers as they slowly developed their own reading skills.
