## ***The Pencil* written and illustrated by Paula Bossio**

**Publisher: Gecko Press**

**RRP \$14.99**

*The Pencil* is an imaginative little board book cleverly told via smudgy illustrations.

Starting on the front cover, a young girl finds a pencil line and follows it, page by page, through hoops, slides, and squiggles having little adventures on the way; some scary and some fun. The back cover shows the cheeky looking pencil holder.

Children and readers can use their imaginations to create their own stories to go with the expressive drawings.

A very simple fun story.
