***A Day with Dogs* by Dorothee de Monfreid**

Publisher: Gecko Press

RRP \$31.66

What do dogs do all day?

This fun discovery book in the style of Richard Scarry will create a lot of interaction between young children and whoever is sharing it with them.

The nine dogs featured in this book are different breeds with different characters. They all have names so they can be found on different pages as they go about their daily activities. They may be in school, at the doctors visiting Doctor Woof, in the country, in the mountains, or learning their alphabet, colours, and numbers.

The illustrations are bright and often comical, creating numerous opportunities for children to learn whilst having fun with the dogs and their antics.

There are lots of objects, animals, and activities to name and identify with.

This hardback book will appeal to a wide age range, especially those Richard Scarry fans!
